SUPPLEMENTAL INFORMATION DISCLOSURE STATEMENT BASED ON
INTERNATIONAL SEARCH REPORT IN A COUNTERPART PCT APPLICATION

Sir:

In compliance with the requirements of 37 C.F.R. 1.56, submitted herewith on Form PTO-1449 is a list of publications (BP-CE) identified in a Partial International Search Report issued in a related PCT application. A copy of each cited publication and the Partial International Search Report is submitted herewith. Applicants respectfully request that the Examiner consider the listed documents and indicate that they were considered by making appropriate notations on the enclosed Form PTO-1449.

This submission does not represent that a search has been made or that no better art exists. Nor does it constitute an admission that the listed documents are material or constitute

"prior art." If the Examiner applies the cited documents as prior art against any claim in the application and Applicants determine that the listed documents do not constitute "prior art" under United States law, Applicants reserve the right to present to the Office the relevant facts and law regarding the appropriate status of said documents. Should one or more of the listed references be applied against the claims of the present application, Applicants further reserve the right to take appropriate action to establish the patentability of the disclosed invention over the listed documents.

This Information Disclosure Statement is being filed within three months of the mailing date of the Partial International Search Report and before a first Office Action on the merits; therefore, no fee is believed to be due in connection with the filing of the statement. However, the Commissioner is authorized to credit any overpayment or charge any deficiencies to/from our Deposit Account, **No. 06-1448 reference GMX-005.01.**

Respectfully submitted,

FOLEY HOAG LLP
